

"The Independence League affords the only refuge for the independent voter, because it alone is founded on truth and justice. It is indeed the first and only safe political organization in American history based upon scientific principles in the interests of the great middle and producing classes, and their true interests are the true interests of the entire country."—FROM CHAIRMAN OSGOOD'S SPEECH AT LEAGUE CONVENTION.

CONVENTION DECLINED

BROWN DETERMINED TO DEFEAT DRAPER

ANNOUNCES HE IS OUT TO FIGHT ON MONOPOLY AND BOSS RULE ISSUES.

E. Gerry Brown made public the following statement today:

"To the delegates who this week assemble in the Independence League and Democratic State Conventions,

"GREETING:

"In justice to the people and to you and myself as a portion thereof, in view of the present conditions, I believe that I should make my position plain, so that you, as the representatives of your respective constituencies and parties, seeking the common welfare, may act as your wisdom may dictate.

"Last year, because of my prominence in labor and reform, I was nominated for Lieutenant-Governor by the Independence League, and later by the Democratic convention.

"The principles I advocated are too well known to you to need repetition. The result was the much advertised 191,138 votes which placed me within 9,000 votes of defeating Eben R. Draper.

"Against Monopoly and Boss Rule.

"If this contest is to be continued this year with any assurance of defeating him, the party is clear, and we shall win. The result of these conventions will be known to you when your State convention meets in Milford, October 11.

"And finally, to all my friends, I thank you for your expressions of good will and for the part you have taken in this letter. You only say that in giving me this letter you are only saying that I am not to follow as night the day, I am not false in any man.

E. GERRY BROWN.

SUICIDE MANIA IN RUSSIAN SCHOOLS

ST. PETERSBURG, Pa., Oct. 3.—During the year 1906 there were 136 attempts to commit suicide among the pupils of the Russian high schools. Of this number 114 succeeded in making their lives. The disturbed state of the country is given as the main reason for this state of affairs.

BURGLARS LOOT DOWNS STATION

Breaking a catch on the window of the Norfolk Down station of the New York, New Haven & Hartford Railroad, early this afternoon, burglars secured admission to the station and looted the baggage car and did other damage in their search for money. The approach of a police officer, who was a mile at the depot and having seen the burglars, did not stop them, and the only booty they obtained was two trunks.

Now a "Full-Fledged Party," Says Chairman Osgood in Addressing Delegates at Faneuil Hall—Stirring Scenes Mark the Opening.

The opening note in the gubernatorial campaign in Massachusetts was sounded to-day in Faneuil Hall when the Independence League delegates, in State convention assembled, elected William N. Osgood as temporary and permanent chairman, and he responded to the honor by making a stirring speech. He attacked the trusts and their methods, and said the Independence League is the only party for the people.

His speech was punctuated by the applause of the hundreds of delegates who had come from all parts of the State to take part in the great political effort to throw off the domination of government by the monopolists.

The galleries were thronged with women, who showed intense interest in the proceedings and waved handkerchiefs at the delegates and party leaders on the platform and on the floor below.

Meanwhile Benavente's A. F. of M. Band played airs so inspiring that they were cheered again and again.

Men who have been prominent in League work throughout the State had an inkling of the public approval for their efforts by the applause which greeted them on their arrival in Faneuil Hall.

The delegates arrived singly and in groups. It was declared they were the first of the kind of the people who had ever gathered in that historic structure since the death of their illustrious ancestor, George Washington. The delegates were met by a delegation of the League, which was composed of representatives of the various political parties and of the press.

Mr. Osgood, during his speech, said: "We are now a full-fledged party, and we are prepared to take our place in the political arena of the State. We are in favor of more direct popular government."

The independence League is a party committed to the theory that public business should be controlled by the public and that private business should be performed by the individual citizen.

"Our opponents are robbing the public and shall be confronted by the public and by the independent citizen. They are robbing the entire wealth of the country, they are undermining American liberty, they are destroying the future of the people by taking all possible human endurance."

SPEAKS OF MERGER.

"The estimate did not seek to visualize the tea tax, an infinitesimal tax upon one necessary of life. They were ready to see the estimate."

Seven days before election day, which was November 1, 1906, Mr. Lawson called on me in the Quincy House, found me in my room, and himself upon the side of the bed, he said he had heard that your campaign com-

Mr. Lawson's personality, honesty, and integrity briefly set forth in my letter above, above quoted.

My mind in relation to Mr. Lawson at this time expresses my regard him now.

Mr. Lawson, by the Democratic party nominated for Governor of New York, in 1854, was deserted by Douglass, Quincy, by Sullivan, by McHenry, and by many of his political associates. I am confident, Lawson, by his action, will be a better Democrat than he has been to you.

Yours respectfully,
JOHN B. MORAN
